

Our fire blankets are compact, portable, light weight and comply with Australian standards. They are available in quick release soft pouches and plastic cases.

For the non commercial cook-top, a 1.0 metre x 1.0 metre Fire Blanket is the ideal

solution for cooking oils. Make sure you read the instructions on the packaging and practice how to use it correctly. Also

available in

- 1.2m x 1.2m
- 1.2m x 1.8m
- 1.8m x 1.8m

(for larger applications)

Smoke Detection

Every home should have at least one smoke detector installed – ideally outside bedroom(s) and should be tested on a regular basis and the battery replaced every 12 months. Call us to discuss the best type of Smoke Detection for your home or home office.

For Commercial grade detection, please contact our Electrical Division electrical.service@protectorfire.com.au

Welding Blankets

Welding Blankets are produced using heat & flame resistant fabrics. Designed to provide protection from grinding & welding sparks, very good spatter and slag burn through resistance. Made from silica glass fabric, blankets are available in standard sizes of

- 1.8m x 0.9m
- 1.8m x 1.7m

Larger sizes made to order.

Also available:

- Vermiculite & Neoprene coated blankets
- Heat treated blankets
- Fabrics available in rolls
- Red & Green ArcSafe screens with brass eyelets
